**SEA-FIRE**

**BOATS ■ YACHTS ■ SAILBOATS ■ WAVERUNNERS**

**FOE™**

## Revolutionary Marine Fire Protection

- Patented direct delivery tube suppresses fire at the source
- Envirogel® extinguishing agent prevents re-ignition
- Completely self-contained and self-activating
- Safe and environmentally responsible
- Compact and easy to install

### How does **FIRE FOE™** work?

As a fire begins, heat fills the affected compartment. Rapidly rising temperatures bring Fire Foe's patented pressurized tube delivery system to its release point at 175° - a function of pressure in the tube combined with temperature of the tube itself - flooding the compartment with Envirogel. An efficient alternative to Halon and its replacements, Envirogel® offers the added effectiveness of first absorbing heat and chemically extinguishing the fire, then smothering the combustible material to prevent its re-ignition.

Reliable, cost effective and easy to install, Fire Foe can be utilized in virtually any enclosed space to protect against Class B or C Fires.

**U.S.C.G.  
APPROVED**

Contains  
**ENVIROGEL®**

**FIRE FOE™** is a safe, reliable, revolutionary automatic fire extinguisher

## New patented delivery technology

- Safe and reliable
- Maintenance-free
- Self-activated by temperature
- Self-contained, compact, pressurized, heat sensitive tube
- Once activated, simply dispose of spent tube and replace

## New patented extinguishing agent technology-Envirogel®

- Non-corrosive
- Safe for people and equipment
- Environmentally responsible - EPA SNAP approved
- More effective than other Halon replacements

## Easy Installation

- Tube diameter is 1.5 inches, at lengths from 8 to 32 inches
- Simple mounting bracket design
- Can be installed in virtually any enclosed space

## Fire Extinguishing capacity

- Fire suppression is site specific for Class B or C Fires
- Extinguishes fire in seconds, minimizing damage
- Smothers fire to prevent re-ignition

## FIRE FOE™ SPECIFICATIONS

Compartment Size to Protect (cubic feet)	Model No.	Total Wt. in lbs.	Length of Tube in inches
15	FF 15	1.4	8
30	FF 30	1.7	11
60	FF 60	2.3	17
100	FF 100	3.1	28
130	FF 130	3.5	32

Customized tube lengths are available by special order
